NEWS SUMMARY.

BY TELEGRAPH.

The counting room of A. G. & J. Brown, fruit dealers, on State street, Boston, was robbed of a large amount of money on Saturday.

Some twelve hundred mechanics, of Boston, who had managed to get through the winter hoping for a Spring revival of business, have become thoroughly discouraged, and leave for California next week.

During the session of the Conference of the New England Methodist Episcopal Church in Boston, the Committee on the Course of the Country, through Rev. Gilbert Haven, reported resolutions indorsing impeachment, and eulogizing General Grant and Secretary Stanton for their patriotic conduct. The resolutions were unanimously adopted, and it was voted to send copies to [illegible]

Hancock's Removal and Appointment.

The order of the President assigning General Hancock to the Department of the Atlantic, though received at General Grant's headquarters, had not been issued from there up to noon to-day. General Grant, after receiving it, addressed a letter to the President, calling his attention to the fact that under the reconstruction law, it would be necessary to send an officer not below the rank of Brigadier General in the regular army to take General Hancock's place as commander of the Fifth District, and inquiring whether the President had considered the difficulty he might have in making a selection satisfactory to himself from the small list of available men. It is understood that the difficulty thus hinted at in Grant's letter consists in fact that the few officers of the required grade, whose political views are supposed to be acceptable to the President, are either incapable or absent on leave. It is supposed Grant will wait for the President to designate Hancock's successor before issuing the order [illegible]

Payment for Alaska.

In answer to a personal application from the State Department, M. de Stoeckl has requested his Government to extend the time within which payment must be made for Alaska. Though in his dispatches no definite time was suggested, it is thought Russia will insist upon fixing some specific date, probably long enough to allow of its consideration early next session, if it should fail at this.

Amende.

A few days since there appeared a paragraph in these dispatches regarding Colonel Burnside, the new nominee for Second Auditor in place of Mr. French, speaking of him as having acted with the extreme Johnson men in Baltimore. This, though written on what was deemed excellent authority, does Col. Burnside great injustice, as he has been from the first and is now a consistent Republican, and was appointed with a full knowledge of this being so, and solely on account of his business qualifications. He served with credit throughout the war.

Impeachment To-day.

There are many rumors of an attempt on the part of the President's counsel to interpose objections to-morrow on coming into court which will delay the anticipated order of proceedings as agreed upon by the managers, but nothing of a definite character has been ascertained by them and they now expect that General Butler will open the case on the part of the House as soon as the court is called to order. This speech will occupy from three to five hours, according as Butler may decide. His argument will be laid on the desk of the Senators in print and a portion of it may not be read. It embraces an article prepared by Judge Lawrence, of Ohio, upon the law of impeachable crimes and misdemeanors, and published in the American Law Register of last September. This General Butler selected and adopted as part of his brief, giving the proper credit. Those who have heard most of Butler's argument speak of it as a masterly effort. There is great anxiety on the part of strangers in town to hear it, and disappointed applicants for tickets are to be found in all quarters and are still on the search.

THE *Journal des Villes et Campagnes* announces that diplomatic relations between Fuad Pacha, Minister of Foreign Affairs of the Porte, and Mr. Morris, representative of the United States at Constantinople, have been suspended, and gives the following explanation of the cause of the interruption:

"It appears," it says, "that in April, 1867, Mr. Morris deemed it useful to address to the United States Government a report on the condition of the Sultan's health and its causes. We read this report at the time in the American journals, and we remember that very clear allusion was made in it to the reports which prevailed for a short time at Constantinople in regard to the mental state of His Highness, and which since have not been confirmed. The report of Mr. Morris found its way into the collection of diplomatic documents which is distributed to the American Congress, and it is that which has aroused the susceptibilities of Fuad Pacha. Mr. Morris has declined the responsibility of this publication, and has cast it upon his Government. But diplomatic relations are not the less suspended between Fuad Pacha and the Minister of the United States."

SAYS a late Paris letter: The impeachment proceedings in Washington are watched with marked interest by the French journals. Most of them take very correct views on the subject. The little disturbance caused by the event in our securities, and the tendency which the price of gold has exhibited to decline instead of rise, are indications to them of the degree of importance attached to it by the country. "How happy are you to have a Government which can stand such shocks," said a prominent deputy to me yesterday; "there can be no better evidence that your political system is based on correct and durable principles."

FROM HARRISBURG.

Railroad Indemnity Bill--Amendments--Appropriation Bill Defeated in Senate--Reason Why it was Voted Down--Motion to throw Out Evidence in the Case of Robison vs. Shugart--Motion Overruled by Committee--Landon Voted with the Democrats--Evidence Overwhelming in Favor of Robison--Republican Members of the Committee are Men of Integrity.

Special Correspondence of Pittsburgh Commercial.

HARRISBURG, PA., March 27, 1868.

The Railroad Indemnity Bill was the special order for last night in the House. The discussion was animated and protracted. Two amendments were adopted, one providing that the fact of a person having bought an insurance ticket from the company should be no bar to a recovery for damages sustained by the negligence of the company and the other raising the amount for personal injury, not proving fatal, from *two* to *three* thousand dollars. It was passed to third reading and the House adjourned about eleven o'clock. It is very evident that the bill will pass.

The Senate this morning proceeded to the third reading and final passage of the appropriation bill. It was evident that Mr. Wallace wanted to make a political speech upon the passage of the bill, and as the Senate had consumed three whole days in its consideration, the Republicans concluded there was no time for political speeches, and therefore, the previous question was called and sustained. The Democrats concluded that they, as a party, would vote against the bill, and, as the Republicans concluded that they could do as long without their pay as the Democrats, quite a number of them turned in and voted against it and thus the bill fell for the present. There was another reason why Republican Senators voted against it. Appropriations had been made to nearly every private charity in the State, and that too, by the votes of Democratic Senators, and after they had loaded this bill down with all these appropriations, they proposed to vote against it on its final passage, and thus throw all the odium of its provisions upon the Republican party. This was looked upon as a political dodge and sharp practice, which the Republican Senators were not disposed to allow. If the Democratic Senators had not, by their votes, inserted so many and such large appropriations for local charities, the Republicans would have taken the responsibility of the bill. But after a large majority of the Democrats had united with a few Republicans in piling on the bill such extravagant sums of money for local and pet institutions, the Republican Senators were not going to father what was not truly their own. As a matter of course there will be a motion made to reconsider the vote by which the bill was defeated. That will be done within six days, or else it will be too late. There is another reason which may have operated on the minds of some Senators who want the bill to become a law, notwithstanding its enormous appropriations, and that induced them to vote against it to-day; and that is to delay final action on it until a day or so before the final adjournment of the Legislature, so that the Governor may have no time to veto it. There are more ways than one of whipping the old gentleman around the bush.

The Senate is engaged to-day considering and passing the bills upon its private calendar. There are about two hundred and seventy-five bills on it. Over one-half that number were acted on this forenoon, and the balance will be acted on this afternoon.

I think the Legislature ought to be ready to adjourn by the ninth of April, if two hundred and seventy-five bills can be acted on in one day. Local legislation is the curse of the State, and yet it appears the people will insist upon their representatives passing such bills.

It is proposed to have a sort of Legislative excursion to the city of New York on next Friday, (this day week.) Probably it is in view of that trip that both Houses are working from ten o'clock in the morning until eleven at night. My own notion is that it would be as well if they would take an excursion to their respective homes about that time. An excursion to New York will be a very nice thing, and if the Legislature cannot get through with its work before that time, I think there will be no impropriety in the proposed trip.

Hon. Galusha A. Grow is here, and looks as happy and cheerful as mortal man can look. He is a gentleman in every sense of the term. Principle and party are far dearer to him than self. He is none of your factionists, neither does he believe in keeping up a continual fight within the same political organization.

There was a motion made by the counsel for Mr. Shugart, the sitting member, before the committee on the contested election case from the Center District, to throw out certain portions of the evidence adduced by Mr. Robison's counsel, and the question was argued this morning before the committee. It was decided by a vote of four to three not to throw it out. Mr. Landon, from Bedford, voted with the Democratic members in favor of rejecting the evidence. There are various rumors afloat as to the measures adopted to secure a report from the committee in favor of the sitting member. The course of each member of the committee will be closely and anxiously watched. The evidence is clear as noonday sun that Robison is entitled to his seat, and a contrary report from the committee would very much astonish those who have heard the evidence. I venture the prediction that the result will sustain the character of the committee for integrity. Every Republican member of that committee will act in accordance with his convictions of right and in accordance with the evidence. And as the evidence is so overwhelming in favor of Robison, there can be no mistake as to the result.

CIVIL AND CRIMINAL PROSECUTIONS.

The following act has passed the Senate and is now before the House:

An Act relative to the time and mode of trial and evidence in certain criminal cases.

WHEREAS, Prosecutions intended to prevent and punish crimes and misdemeanors are frequently instituted by private persons, as modes of enforcing redress for alleged civil wrongs, and for purposes of extortion and oppression, now, to prevent such abuses, therefore,

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That whenever an indictment for an alleged crime or misdemeanor shall be found against any person or persons who shall at time of such indictment be party or parties of record to a civil proceeding at law or in equity then pending, wherein the person or persons on whose information the said criminal charge was based, or on whose testimony, before the grand jury, such indictment was found, shall all be adverse party or parties of record, and wherein the same fact or facts are the subject of litigation, as are charged and alleged in the said indictment, the trial of such indictment shall, on the petition of the party or parties accused, averring the pendency of such civil proceedings, and verified by affidavit, be postponed until the said action or suit shall have been determined by final judgment or decree. *Provided,* That the person or persons accused, if under bail, shall give or renew bail for his or their appearance from time to time, as required, until the indictment shall have been finally disposed of.

SECTION 2. That hereafter upon the trial of any person or persons indicted for any of the offenses specified in the one hundred and seventh, one hundred and eighth, one hundred and ninth, one hundred and eleventh, one hundred and twelfth, one hundred and twentieth one hundred and twenty-fifth, one hundred and twenty-sixth one hundred and twenty-seventh, one hundred and twenty-eighth, one hundred and twenty-ninth, one hundred and thirtieth, and one hundred and thirty-fourth sections of the act entitled "an act to consolidate, revise and amend the laws of this Commonwealth relating to penal proceedings," approved the thirty first day of March, A. D. one thousand eight hundred and sixty, or for any like offense at common law, if such indictment shall have been found upon the information, or shall at the trial thereof be supported by the testimony, of any person or persons who shall at the time of such information or trial be party or parties of record to a civil proceeding at law or in equity wherein the person or persons accused, or some of them, are also adverse party or parties of record, and wherein the same subject matters are involved, the person or persons indicted, or any of them, shall be competent to testify on his, her, or their own behalf before the court and jury, and in all such cases where the accused or any of them have testified, the jury trying the case shall have the same power over the costs as is given in ordinary cases of misdemeanors, although the offense charged may be a felony.

OF all farmers on a large scale, the Viceroy of Egypt is probably as favorably circumstanced as any. The thousand acre wheatfields of our Western growers become mere garden patches in comparison with his 200,000 acres of cotton, sugar and rice. Then he has a pleasant way of confiscating plantations to which he happens to take a fancy, and adding to the extent of his estate as the viceroyal ideas expand. He, together with the rich Pashas whom he has not robbed, plant some 400,000 acres of cotton alone, upon which they expect to produce as many bales. It costs him nothing to raise his crop. The fellahs work for low wages or the use of a small piece of land, and when the Viceroy is in a hurry, or short of hands, he orders a regiment into the field—the cotton field, that is—to pick. As he makes taxes himself, he is not compelled to work two days in the week for the internal revenue, and thereby enjoys a delightful immunity. It is not strange that Egyptian cotton, under such a system, can compete with the American staple. Before the war it was not uncommon to see Bedouin Arabs, in the shadow of the pyramids, clothed in American cotton. A Louisiana paper, commenting on these facts, suggests that should our planters continue in the old way of raising cotton, it may not be the most improbable thing in the future to see freedmen in the Mississippi Valley clothed in Egyptian fabrics.

THE insurance agents of Chicago have had a meeting to take action upon the present system of employing solicitors and other like means in obtaining risks. $82,000,000 of insurance capital was represented. By a vote of sixty-seven millions against fifteen millions, it was resolved to hereafter dispense with all solicitors and other like influences, to confine their business to their offices, and with only such parties as seek insurance. In this way they expect to save at least fifteen per cent. in their expenses, and to confine their business to legitimate and proper risks. This insurance shyster business has, beyond doubt, become a source of great corruption and villainy, and to it is to be traced almost the entire incendiarism which has devastated that city. The companies which have taken this step embrace about all the most reliable companies represented in Chicago.

AMONG the number of new Cardinals, who were appointed by the Pope on Saturday, is Prince Lucien Bonaparte, a near relative of the French Emperor. Cardinal Bonaparte is, at present, the only Cardinal who is a blood relation of a European sovereign, for Austria, Spain, and other Catholic Houses which, in former centuries, repeatedly had a Cardinal among their members, are at present unrepresented in the College of Cardinals. For many centuries it has been, if not an explicit law, at least the habit not to elect a member of a sovereign house Pope; but public opinion in Europe ascribes to Louis Napoleon the intention of using his influence at one of the future vacancies of the Holy See for the promotion of his cousin to the highest honor in the Church.

Man Terribly Bitten by a Vicious Horse.

A German named Frederick Arshanbach, a teamster, residing on First street, Third ward, Allegheny, was terribly bitten on Saturday by a vicious horse belonging to him. It appears that Mr. Arshanbach was feeding the animal in his stable when it suddenly caught his left arm in its mouth, and commenced gnawing it terribly. Mr. Arshanbach attempted to extricate his arm from the animal's teeth, but this only aggravated the animal the more, and it commenced gnawing the arm in several places. A brother of Mr. Arshanbach then came up and seizing an ax dealt the horse a heavy blow on the head with the blunt end of it, causing the animal to loosen its hold. Mr. Arshanbach was taken into his house, and Dr. Hamilton summoned, who attended him. His arm was terribly gnawed in several places, and almost severed. Fears are entertained that mortification will set in and result fatally.

The Daily Commercial

MONDAY, MARCH 30, 1868.

The Commercial is the largest daily paper in the State, and gives daily one fourth more reading than any other paper in Pittsburgh. It is the only [illegible] paper that uses the telegraph liberally, gives full market reports, and all the news of the day.

As proof of the estimate placed on the market reports of the Commercial, we will state that they are regularly copied by the New York Economist, Shipping List, Iron Age, and other papers of this character in that and other cities, and that leading English commercial papers and circulars regularly reprint them with credit. There is within five hundred miles, hardly an Iron Factory, Oil Refinery, or leading manufactory of any kind that is not a subscriber to the Commercial, principally because its reports are the only full and reliable gauge of the Pittsburgh markets.

The Chicago *Tribune* of Friday, says: "The absence of Senator Yates from the impeachment trial on Tuesday is a circumstance requiring some kind of elucidation. It was reported not long since that a committee of his immediate friends in the central part of the State had delegated some person to proceed to Washington and invite him to resign. If he cannot attend the impeachment trial, it is his duty to resign forthwith, and enable the Governor to appoint somebody who can."

The proceedings in the House of Representatives Saturday, possess a peculiar interest, the bill reported by the Reconstruction Committee, admitting Alabama to representation at once, to which Mr. Stevens offered an amendment, declaring that suffrage shall forever be universal and impartial, being under consideration. Mr. Williams, of Pa., opposed the bill on the ground that he was not for forcing the "incorrigible delinquents into an association with those whom they hated under a government they had attempted to destroy." After a long and somewhat excited debate, in which Mr. Stevens took part, and was opposed by Boutwell and others who occasionally acted with him, the bill and Mr. Stevens's amendment were voted down, and the substitute offered by Mr. Bingham, of Ohio, providing that the State officers elected at the late election shall enter on their duties on the first of May, and for the formation of a Constitution which, when approved by the people and Congress, shall entitle the State to representation, was adopted. The vote on the bill thus amended was a strict party division, Mr. Williams not voting.

The impeachment trial will commence to-day. It is disputed that Mr. Chase has determined to exercise his functions of Chief Justice, and decide all judicial questions. If this be so, all apprehension of delay or trouble from that source ceases. The managers expect to have the testimony on their side and their part of the case, with the exception of the closing argument, concluded the latter part of the week. But the progress and direction of the trial will depend very much on the course taken by the President's counsel. By objections at every step, backed by speeches at the full length of the time allowed, days, and perhaps weeks, may be consumed. But with straightforward work, with no time uselessly consumed, the trial ought not to extend longer than one month, and it is difficult to perceive why it should linger the half that time. The President's counsel will summon Mr. Stanton and ask him to show his appointment from Mr. Johnson, and he will be asked if he did not advise Mr. Johnson that the civil tenure act did not apply to Cabinet officers appointed by Lincoln. It is understood that several Republican Senators will be summoned to testify substantially to the same thing. No further delay will be asked for. General Butler will make the opening speech to-day. It is expected to be "the greatest effort of his life." But as to that, we shall know more when we read the speech.

AN INTERESTING CASE DISPOSED OF.

The application of Mr. George B. Vashon, a colored man, for admission to the Allegheny Bar, which had been some time pending, came up finally on Saturday, and was rejected. The proceedings will be found reported in another place. The opinion, which was delivered by Judge Stowe, and concurred in by his Associates, was based on the ground that the applicant had not complied with the rule of the Court, applicable in such cases to white and black, and that no reason had been shown why it should be relaxed in this instance. The question of color did not enter into the decision, although it had entered largely into the arguments pro and con, before the Court, and was what gave the case its chief interest in the community. But Judge Stowe having decided the case, alluded to the question of color when he said: "It would scarcely be consistent with the principles of justice we profess to administer, to exclude any one from practicing law simply upon the grounds of personal antipathy or prejudice, or from political considerations." A remark entirely sound, though gratuitous, the question having already been decided on the question of regularity. Having gone thus far, it would have been more to the point, had the Judge said squarely: "This Court holds that no man should be denied admission to this bar on account of the color of his skin," or the reverse, if that is what was the Court's opinion. Either this or the entire omission of the extra ambiguous phrases employed, apparently in deference to the interest which attached to the question on account of the applicant's color, would have been more satisfactory to that part of the community which has taken an interest in the question. If it was intended to decide the question of color at all, it should have been done squarely.

In the opinion of Judge Stowe, Judge Sterrett concurred. Judge Mellon, however, availed himself of the opportunity to go further and into the question of color at length, and discuss extensively the question of races, and [illegible] thing of novelty in them. He was opposed decidedly to colored lawyers here, though he was in favor of negroes becoming lawyers wherever they could practice among their own race, but he nevertheless took occasion to add that he was in favor of giving the negro equal rights and privileges "in the halls of Congress, where it can be done without detriment to either party." Without going into an examination of Judge Mellon's views, we will remark, that one cannot fail to be struck with their inapplicability to the question before the court. We think the conclusion will be general that his opinion was altogether an extraordinary performance.

BALTIMORE'S NEW ERA.

The new Baltimore and Bremen steamship line threatens to be a formidable rival to the old lines. At the bottom of the enterprise is the Baltimore and Ohio Railroad Company. (Cannot Philadelphia induce the Pennsylvania Company to undertake something of the sort for her benefit?) Ten months ago Mr. Garrett conceived the idea of making Baltimore the principal port and then road the principal road for the German emigrants bound for the West. The result of his negotiations with the celebrated Lloyd Brothers was an agreement which is in the course of fulfillment. Two steamers, the *Baltimore* and *Berlin*, are already built, and if the enterprise succeeds two others will be built. The capital requisite for starting the enterprise was furnished, it is understood, in Europe, and was subscribed mainly through the representations of the Baltimore and Ohio Railroad Company. The plan is that passengers can leave that great point of European exodus to this country—Bremen—by either of the steamers of the Baltimore and Bremen line, and be furnished at starting with through tickets to any point in the West at much cheaper rates than they can otherwise reach there, and with considerable economy as to time, provided they take the Baltimore and Ohio Railroad. The recent Consolidation of the Pittsburgh and Connellsville Railroad Company from the Pennsylvania Company, is not the least consideration in favor of this enterprise. Already Philadelphia is becoming sensible to the fact that Baltimore as a commercial city is shooting ahead of her.

EMIGRATION SOUTHWARD.

Such seasons as the one through which we have just passed, can not but make thoughtful men give some consideration to the first principles of political economy. The question urges itself for discussion whether there is in the nature of things a necessity for periodical returns of the exigency and distress with which of late we have all been so familiar. If there is any way to broaden the basis of national prosperity and thus give it a more stable equilibrium, a thousand sacred interests, vital to our common humanity, clamor for the immediate evolution of the potent principle.

We have much faith in the view adopted by many, that important in their sphere as are questions relating to tariff, revenue and the like, the great matter with us is to increase the absolute production of wealth within our immense domain. Every acre of tillable soil represents a possible yearly income, and income, too, of substantial values. Men are easily deceived by the jugglery of trade and speculation, but the truth is that nothing is *made*, familiar as we are with the abuse of the word, unless there has come into existence or into a new form, that which now begins to conduce, or conduce more largely, in some way, to the advantage of the community. When the soil that last year gave forth only the wild flowers and grasses that fed the fires of Autumn, is made this year to yield bread or clothing, there is so much less of hunger and shivering to be set down in the year's account of human suffering.

We are largely an agricultural people. We are strong in the proportion that we are such. The farmer is as independent a man as lives; a nation of farmers need never let its Fourth of July celebration go out of use. More than this, the man who gives the greatest practicable variety to his farm operations and their products, is the most independent of his class. The analogy holds with a nation. It will not do to stake the well being of a whole people on the prosperity, from year to year, of a single branch of industry, however valuable. The more numerous the channels of national wealth, less the danger from occasional stoppages in any one of them.

We are glad then to notice the attention that is now given to the Southern States as an inviting field for agricultural enterprise. We shall never see there the prosperity of ten or fifteen years ago, until that part of our country has recovered from its paralysis. Information in regard to the prospects of emigrants in that direction, and the requisites for successful effort is now in eager request. There is something of romance in the interest with which we read of the tropical life and generous fruits of Florida, for example; and the enthusiasm of those who court these and try their artistic powers in reproducing its scenes, is found to be contagious in the last degree.

We learn that it is greatly desired by worthy men there, that colonies of steady, intelligent men with their families, should make Florida their home. They could carry with them all the society they needed, their pastors and teachers, and taking up a large body of land, could form a community to their own liking. That they would be welcomed by the old citizens, we have the fullest and most satisfactory assurances. The man who could originate and successfully prosecute an enterprise of this sort, would have the gratitude of successive generations. He must have rare traits of character to deserve and command confidence in a matter involving such grave responsibility, but we must believe that such men can be found. Two such men, sustained by an enlightened sentiment among the classes with whom they would operate, would do more than all the legislation of national, State or trades union congresses, to suppress the miseries of which strikes and lockouts are at once the symptoms and the aggravation.

Who Are the Bondholders?

The New York *Evening Post* has ascertained by careful inquiry, that of the five richest men in New York city only two are holders of United States bonds, and these only to a very inconsiderable amount, and that among those who return incomes of over one hundred thousand dollars in New York and Brooklyn, about the same relative proportion of bondholders exists. On the other hand, the savings banks of New York hold forty-nine millions of bonds as investments for the funds of their depositors, the interest of which, deducting the expenses of the banks, is paid to 200,000 of the laboring men and women of New York semi-annually. Of the several classes of "aristocratic bondholders" whose money is thus invested, the largest in numbers are, first, domestic servants; [illegible]. A list of the occupations of the "bloated aristocrats" who receive the dividends of the 5-20 bonds, taken from one of the savings banks of the city, shows the following assortment: Actors, bakers, butchers, bartenders, blacksmiths, boarding house keepers, boatmen, boiler makers, bookbinders, butchers, cartmen, coachmen, carpenters, clerks, domestics, engineers, farmers, ferrymen, gardeners, hatters, masons, hucksters, junk dealers, laborers, milkmen, milliners, nurses, sailors, peddlers, porters, plumbers, seamstresses, shoemakers, soldiers, tailors, teamsters, washerwomen, waiters, and women.

The Life Insurance Companies of New York hold twenty millions of the bonds as security for the persons, in all parts of the country, who hold their policies, and the Fire Insurance Companies hold forty-six millions as security for their customers. A very large sum is held in the form of trust estates for the benefit of widows and orphans under order of the courts. Three hundred millions are held by the National Banks as security for their bill holders.

New Railroad Project in this State.

The act to incorporate the Bedford and Bridgeport Railroad Company, which is to connect with the Pittsburgh and Connellsville Railroad, has passed both houses of the Legislature, and only wants the Governor's signature to become a law. The Bedford *Inquirer* of last week, in noticing the withdrawal of the "one man and a wheelbarrow" engaged in the construction of the "great Southern Pennsylvania and Connellsville Railroad," says of the Bedford and Bridgeport project:

> [illegible]

As we have already announced, a bill is before the Legislature authorizing the construction of a railroad from Brownsville to Greensburg, which is intended to cross the Youghiogheny river at or near Dawson's Station. The Uniontown *Standard* says:

> [illegible]

The *Tribune* thinks the Republicans are not likely to nominate Pendleton as the Democratic Chase for the Presidency. There would be as much sense in the one case as the other, and there is more probability of the one than the other. The *Tribune* is a special admirer of the Chief Justice. Here is what it says of him:

> [illegible]

The Philadelphia *Inquirer*, referring to the celebration by the citizens of Baltimore of the arrival at Baltimore of the pioneer steamer of the new Bremen line, puts the following pertinent questions: "What has become of the merchants of Philadelphia? Are they willing to stand calmly by and see New York, Boston and Baltimore secure the trade of the old world without making an effort to bring at least a portion of it to our own port?"

The Harrisburg *Telegraph* proposes Hon. Thomas Williams, of this city, for the position of Attorney General in Mr. Wade's Cabinet, provided the latter becomes President.

THE SOUTH.

Perhaps Congress will conclude not to trouble itself a great deal about amnesty after it has received a few more such rebuffs as the following reply of John H. Gilmore, of North Carolina, to a proposition that he with others be relieved from political disabilities incurred by treason:

> This is rather more than I can stand. [illegible]

The Tennessee Legislature passed an act authorizing the election by the State at large of an additional Congressman. The Knoxville *Whig* says:

> [illegible]

The Columbus, (Ga.) *Sun* says: Farmers tell us it is doing finely, and that a considerable area has been planted. The season has thus far been good. Oats and other cereals are promising most advantageously. A considerable amount of such things will be gathered in this section if the season continues propitious.

The Knoxville *Whig* says: During the past two weeks the Governor has been applied to by several officeholders in this State to give them his indorsement of their Radicalism. They positively assert that they have all the time been as hostile to rebels and Johnson's policy as anybody, and think "old Ben. Wade" would make a great mistake and do injustice to a "mighty" good Radical to turn them out. Meanwhile they are not only radical but actually advocate impeachment. They think Wade the very man for the Presidency, and that Johnson should have long since been removed.

The Charleston *Mercury* cries out against the new Constitution of South Carolina because it provides no law against the intermarriage of whites and blacks. Fine chivalry! Will somebody make the necessary law forthwith, lest the editor of the *Mercury* and his white friends should rush off to the rice swamp and marry negro wives!

In speaking of the new Constitution, the Charleston *Mercury* says:

> [illegible]

PERSONAL.

—Thaddeus Stevens, owing to his feebleness, has to be daily carried in a chair to and from his lodgings to the House of Representatives. To perform this labor, he employs a couple of athletic attendants, and a few days ago he startled them while carrying him, by halting them and gazing into each of their upturned faces, remarking in his quaint style, "Well, boys, what am I to do when you are both dead and gone?"

—It is stated that the personal income returns of the last fiscal year show that there are only seven Congressional Districts whose inhabitants return a personal income of over $1,500,000. The Third District of New York, which embraces some of the wealthiest wards of Brooklyn, and is represented in Congress by the Hon. Wm. E. Robinson, pays $1,837,260 73. First District of Illinois, which embraces Cook county, where Chicago is located, and is represented in Congress by the Hon. Norman B. Judd, ranks fifth in the list, paying $1,652,139 94. The Second Pennsylvania District, which comprises the First, Seventh, Eighth, Ninth, Tenth and Twenty-sixth wards of Philadelphia, and is represented in Congress by Hon. Charles O'Neill, pays [illegible]. The Sixth District of New York, which consists of the Ninth, Fifteenth and Sixteenth Wards of the city of New York, and is represented in Congress by Hon. Thomas E. Stewart, pays [illegible]. The Third District of Massachusetts, which is composed of the Fifth, Seventh, Eighth, Tenth, Eleventh and Twelfth Wards of the city, and Roxbury and Brookline, and is represented in Congress by Hon. Ginery Twichell, pays [illegible]. The Fourth District of Massachusetts, which comprises the First, Second, Third, Fourth, Sixth and Ninth wards of Boston, and Cambridge and Chelsea, is represented in Congress by Hon. Sam. Hooper, ranks third in the list. The total amount paid is [illegible]. The Eighth District of New York, which comprises the Eighteenth, Twentieth and Twenty-First wards, in the city of New York, and is represented in Congress by Hon. James Brooks, pays a total personal income tax of [illegible]. This is the largest amount paid by any single district.

—Barnum saved his humor as well as his appetite from the fire which destroyed his other valuables. Being questioned in court the other day, as to the amount of money he is now seized of, and how he had made so much in a short period, the court decided he might answer or not, as he pleased. Mr. Barnum, taking a pencil and a large sheet of law paper—"I certainly have not the slightest objection [commencing to make figures rapidly] but it will involve some little delay to the court. I shall be obliged to figure up my profits on the 'What is it,' then the gorilla, the mermaid, and enter into some pretty nice calculation regarding the net proceeds of the woolly horse. I shall also be compelled to go over and make a catalogue of the museum, and in the course of about five days we shall probably begin to get some faint glimmer of light on the subject." The court informed the witness that the answer might be waived.

A gentleman of New York has recently patented an appliance for preserving life in the water. It consists simply of a cork jacket and a hose rubber suit, the latter being in a single piece and covering the entire person, with the exception of the face and hands. The whole weighs eight and a half pounds and is put on in two or three minutes. There are also iron soled shoes for ballast. At Battery Place yesterday afternoon, the inventor made a practical exhibition, which though unannounced and intended to be strictly private, attracted a large crowd and excited a good deal of interest. After being dressed in his suit the inventor waded into the river and sank at once to his armpits. Remaining in an erect position, he paddled off amid the plaudits of the lookers-on. After a while from a tin case attached to his waist by a string, and which floated behind him, he removed a small can, which he proceeded leisurely to unbolt, and [illegible] a staff about eight feet long. This he fastened to the case, and from its top the breeze unfurled a flag, bearing the word "Eureka." He also extracted apples and other provisions from the case; and after refreshing himself with these, he turned over on his back, and was borne seaward by the outgoing tide. At the end of forty minutes, however, he worked his way to the shore, where he was received by the crowd, and showered with complimentary remarks.

The Shoe Trade of Lynn.—The Lynn *Reporter* of Wednesday says that the shoe business in that city is in a very satisfactory condition, and that the opinion is expressed by those who have for many years been acquainted with the local trade, that they have scarcely if ever known anything like it. The manufacturers generally have full employment for all their available force, both of men and machinery, and some of them, even with their utmost efforts, find it difficult to keep pace with their incoming orders. How long this state of things will continue of course no one can tell, but the prospect is certainly good for an excellent spring business.

In Louisville (Ky.) last week, a woman was taken in labor with her sixth child shortly after a rupture received in the upper end of the womb, through which the child and after-birth passed from the womb into the abdomen, in contact with the bowels. Dr. Bayless made an incision six inches long through the walls of the abdomen, removed a dead child weighing twelve pounds, and the after-birth, and sewed up the wound. The patient was under the influence of chloroform and suffered none from the operation, and after it was over went quietly to sleep. At last accounts she was doing well.

It has been said of late that the Manhattan Club in New York, comprising Mr. August Belmont and other magnates of the Democratic party, is talking of a compromise with the greenback fever of the West by reviving the old ticket and urging the nomination on the 4th of July of McClellan and Pendleton. As long ago as last November, politicians as shrewd as Edwin M. Stanton, predicted the nomination of McClellan again. Still readers need not give implicit credit to this latest combination unless they choose.

Minnesota has made some important changes in her criminal code. She has practically abolished capital punishment, by the enactment of a law declaring that no criminal shall suffer the penalty of death without the unanimous recommendation of the jury. She has decided that in all criminal cases the accused shall be allowed to testify in his own behalf. And further, she has provided that an amendment to the Constitution shall be submitted to the people next November abolishing the grand jury system.

The delegates representing the Fifth Congressional District of Pennsylvania, whose representation at Chicago was left open by the State Convention, met in convention at Doylestown last week, and made choice of Mahlon Yardley, of Doylestown, and Alfred C. Harmer, of Germantown, as delegates to Chicago. They were instructed for Grant and Curtin.

Even the Chicago *Post*: Certain of the Copperheads of Chicago, despite the maledictions of the rebel organ here, are actively at work for Judge Brown as a candidate for the Presidency. [illegible]

FROM BEAVER.

County Court—Judge Acheson—Examination and Entertainment of the Beaver Seminary and Musical Institute

Special Correspondence of Pittsburgh Commercial.

BEAVER, March 28, 1868.

We have just passed through the usual closing exercises of the winter session of Prof. Taylor's Seminary, and your "occasional" correspondent purposes to give the numerous readers of your excellent paper a brief account. Therefore you must know that in this quiet town, which its younger and perhaps more ambitious sisters declare to be passing through a genuine Rip Van Winkle sleep, it is not an easy matter to make a paragraph of sufficient importance to arrest the attention of the busy world outside.

An unusually long calendar has helped to break up the monotony of the town for a longer period than is usual at the quarterly sessions of the County Court. His Honor, Judge Acheson, is, I believe, very highly esteemed by members of the bar, and certainly makes a favorable impression upon outsiders. His self-possession, dignity, keen perception and familiar acquaintance in the law, are valuable qualities in a presiding Judge.

The examination at the Seminary, which passed off on Thursday, I do not propose to dwell upon, but to give my attention to the literary and musical entertainment given in the Methodist Episcopal Church in the evening. The music was of course under the superintendence of the accomplished Professor of the Institution, Mr. E. C. King. This was the first appearance of this gentleman before any large audience in town, his soirees having been given in the Seminary, which can accommodate but few; but if the Professor will give us such a programme and have it as well passed through, we can assure him that the lovers of good and classical music will ever greet his appearance with a full house. The opening piece was an instrumental duet—"Les Bords du Rhine"—which was tastefully executed by the Misses Moore, of New Philadelphia, Ohio. Miss Ecoff, of Sharon, and Miss French, of Beaver, read, the former an essay and the latter the first part of the paper entitled the "Mayflower," in clear and distinct tones of voice and were well received. "Falling Leaves," an essay by Miss Hare, of Summerfield, Ohio, was recognized as containing a very well conceived and well executed plot. A concert recitation by eight young misses of Jeptha's Daughter by Willis, was highly appreciated by the audience. Miss Whistler, of Rochester, read a sensible essay on the "Influence of the Bible," upon nations and individuals. "La Cascade de Roses" was truly well executed by Miss Neeley, of New Philadelphia, Ohio, who has a very powerful touch and always does herself credit. The "Seminary Offering," by Miss Milner, of Mount Pleasant, Ohio, was a paper of great variety and spiciness. "La Rive" was very skilfully and tastefully executed by Miss Clarke, of New Castle. The same young lady recited a poem entitled "At Fredericksburg," an incident of the late war. During this recitation a death-like stillness prevailed throughout the house. "Our Beautiful Mountain Home," sung by the Misses Robinson, from Academia, was loudly encored. "O Luce Di Quest Anima," sung by Mrs. King, in Italian, was very enthusiastically received and encored, when she sung with great pathos and power "I'll Follow Thee." Mrs. King, who is the vocal teacher in this institution, has a voice of great purity and strength, and of a very high degree of cultivation.

The other exercises of the programme are indeed worthy of notice, but I see my communication will be too long. They were "Harp Æolian" by Miss Rose; recitation by Miss Campbell; Essay, Rip Van Winkle, Miss Boyle; Mayflower, Part II, by Miss Frazier; Essay, "Ten Years," by Miss Kingsley; Duett, the "Pirate," Misses Clark and Neeley; Essay, "Carillon Music," Miss Walker; Impromptu Polka, Miss Moore.

These exercises have been pronounced by some the best the Seminary has ever offered to the public. Certainly the evident satisfaction of the audience and hearty congratulations, must have been very gratifying to pupils and teachers. The Faculty of this institution is of a superior character, and it is evident that with its beautiful surroundings no better place can be found for securing a thorough and practical education. We may not pass unnoticed the fine display of paintings, exhibited in the Reception Room of the Seminary, by the pupils of the highly accomplished teacher of this department, Miss S. M. Spencer, herself, we believe, a pupil of your best city artists, Mr. Wall. We bid this institution God speed in its efforts to advance and elevate the interests of female education. Its next session commences with but a brief respite from the close of the winter. QUO.

EXTENSIVE FIRE.

Messrs. Graff, Bennett & Co.'s Nail Mill and Factory Destroyed—Heavy Loss.

About five minutes before nine o'clock on Saturday night a fire broke out in the nail factory of Messrs. Graff, Bennett & Co., located in Monongahela borough, nearly opposite the foot of Market street. In the same building with the factory was the sheet and nail mill, and with such rapidity did the fire spread that the whole building was enveloped in flames in a few moments. It was frame, was 120 by 80 feet, and stood on the banks of the Monongahela river. When the fire was first discovered it was burning in the nail factory near the furnaces. The alarm was immediately given, and the people on the South Side at once flocked to the scene of the fire. The big bell in this city sounded an alarm from box 4, corner of Ferry and Second streets, and the engines answered the call promptly. Considerable time was lost by the engines going down to the point from whence the alarm proceeded, and by the time they arrived at the fire, the building was almost totally consumed. There was but one fire plug in the vicinity and it was so far away that it took the hose of several companies to supply one engine. The remainder of the engines drew water from the river. As we have stated, the building in which the fire originated was so nearly destroyed when the engines arrived that it was useless to attempt to save any portion of it, and the firemen directed their attention to the bar mill, or mill proper, one of the most extensive in the West, which was on fire several times, and which only by their utmost exertions was saved from destruction. The flames completely destroyed the factory, together with 200 kegs of nails, which were stored in the building, and which it was impossible to save. The machinery and the nail machines, forty-three in number, are so much damaged as to be of scarcely any use. The bridge across the street from the bar mill, over which coal in cars was taken to supply the factory, was also burned down. The roof of the building was of sheet iron, and did not fall in until every support was burned from under it. This accounts for the stacks still remaining standing, only one fell, and that one when the roof went down.

The cause of the fire is at present a mystery. Work was stopped in the factory at noon on Saturday, and the fire did not break out until nine o'clock that night. The loss will probably reach $40,000, on which we believe there is an insurance of $25,000, divided among the following companies: Eureka, German and North American, of Pittsburgh.

We are informed that this disaster will throw about one hundred men out of employment. In September, 1866 the works met with a similar fate, but were rebuilt and operations resumed in a short time. Previous to the first of January last the works had been idle for about four months.

The cause of the fire will be investigated.

COURT PROCEEDINGS.

District Court—Judge Williams.

On Saturday morning, at the opening of Court, Judge Williams delivered a verbal opinion on the motion to enter a judgment of non-suit in the case of J. J. Crist vs. The Pittsburgh, Fort Wayne and Chicago Railway Company. He ordered a judgment of non-suit to be entered, on the ground that there was no legal obligation resting on the railway company to have its roadway, at the point where the accident happened, so filled up and compressed as to present such an even and smooth surface that an employee, in walking backward to put on a link or make a coupling, would not be liable to stumble or fall. The plaintiff in attempting so to do, had stepped upon a portion of loose earth, which caused him to fall, and before he could recover his position he received the injury which caused the loss of his arm. There was nothing to show that the filling had been improperly done or that it had been made up of improper material, and the Court could not charge the jury, as a matter of law, that the defendants had been guilty of any negligence. Plaintiff's counsel had leave to move the Court in banc to have the non suit set aside.

Messrs. Hampton and Purviance, after the judgment of non-suit had been announced, and before it was entered on record, asked leave to proceed and cross-examine the witness who had been examined in chief by the defendants, and denied the right of the Court to take the case from the jury at this stage of the proceedings. A note was made of this offer, which was overruled, and the case will be taken to the Supreme Court.

The following is the trial list for to-day:

[illegible] Dennis Richardson and wife vs M. R. Trevor, M. D.
[illegible] Rev. S. Washington vs. Thos. M. Bell.
[illegible] S. Erickson vs Oppenheimer & Co.

Quarter Sessions—Full Bench.

The jury in the case of Daniel McHarry and Hugh Connelly, found a verdict of not guilty of the larceny, but guilty of receiving stolen goods. Remanded for sentence.

John Lynch, convicted of selling liquor on Sunday, was sentenced to pay a fine of thirty dollars and costs, and undergo ten days imprisonment in the county jail.

Christian Bensing, convicted of assault and battery on Nicholas Kaser, was sentenced to pay a fine of one hundred dollars and costs.

John Schultz, convicted of aggravated assault and battery, on oath of Nicholas and John Meyers, was sentenced in the first case to pay one hundred and fifty dollars fine and costs, and in the second case fifty dollars and costs.

Common Pleas—Full Bench.

An order was made granting a charter of incorporation for the Reformed Presbyterian Church of Allegheny City.

Opinions were delivered in the matter of the application of George B. Vashon for admission to the bar. They will be found elsewhere.

The following is the trial list for to-day:

[illegible] Miller vs Lowry's administrator.
[illegible] Lynch & Duff vs Campbell & Aiken.
[illegible] Jackson vs Duffy.
[illegible] Tweedle vs Musgrave.

U. S. District Court—Judge McCandless.

In the bankruptcy branch Howard Furman was adjudged a bankrupt and discharged.

Thomas Broderick filed a petition for adjudication in bankruptcy, and the usual order was made.

United States vs. three barrels of gin and three barrels of brandy, consigned by Edward Milligan to J. D. Bowl. Libel of information in a case of forfeiture for violation of revenue laws.

United States vs. twenty barrels of whisky, &c., the property of E. & B. Bavan. Libel the same as above.

Venire for twenty-two grand and forty petit jurors ordered to be issued, returnable on the first Monday of May next.

Court adjourned.

The Case of the County vs. Wm. A. Herron—Decision of the Court.

Some two years ago suit was entered on behalf of the county against Wm. A. Herron, Esq., Clerk of the Courts, to recover the sum of one dollar in each case of license granted, which sum had formerly been paid over to the Board of Auditors, but, after the abolishment of that office, was retained by him. Two suits were brought for the recovery of the amounts so held by him. In the first case judgment was entered against him in the sum of $2,064, and in the second [illegible]—subject to the opinion of the Court on reserved questions.

On Saturday Judge Stowe delivered the opinion of the Court, as follows:

The questions reserved in these cases were:

1. Whether Wm. A. Herron, Clerk of the Quarter Sessions, during the time he was in office, was bound to collect the sum of one dollar in each case where license was granted to sell liquors to be paid to the County Treasurer.

2. If so, whether the plaintiff was barred of the fact that the same was not included in the Controller's report for the several years defendant was in office.

3. Whether defendant is liable for interest on the amount of moneys retained by him.

1. We are of the opinion that it was the duty of the Clerk of Courts, during his term of office to collect, (as he has done,) one dollar in each license granted, as required by the act of 1856, and that he was bound (as he has not done,) to pay the amount so received by him yearly to the Treasurer of the county.

2. We can see nothing in the fact that the Controller's reports do not include these items, which will bar the plaintiff's right of recovery.

3. We can see no reason why interest should not be allowed.

Let the judgment be entered in each case, for the amount of principal and interest found by the jury.

Defendant's attorneys excepted to the decision of the Court on the reserved questions, and the case will probably go to the Supreme Court.

PRACTICAL HINTS ON GARDENING.

The melting of the snow and ice reminds us that "winter is past, the rain is over and gone, the time of the singing of birds is come," and the time of planting seeds is also coming, so a few hints on the subject may not come amiss.

First prepare your soil properly. If you have no loam laid away for this purpose, take, any warm day, the upper surface of loam from your richest garden beds. Bake it in the oven in an old tin pan, when so dry as to crumble in your hands, add one-third white sand. Now fill your pots, boxes or pans with the mixture. The pots made for planting seed, with large holes for drainage, are the best, but salt, raisin or cigar boxes will answer. Fill to the brim with the heated soil, press down firmly, and when milk-warm plant your seed. If large enough, place them in one at a time, about an inch apart; if very small, like petunias, sprinkle over the soil, press them in gently with the hand, then sprinkle on sand. Take a piece of an old flannel, double it, and lay on the seeds, pressing it down at the corners; then water with luke-warm water over the flannel. Put your pots or boxes in some warm place, on the shelf of a range, or on a mantel piece under a stove-pipe. The kitchen is the best place, for the steam from the kettle keeps the air moist.

Leave the boxes there until the seeds begin to push, giving lukewarm water over the flannel every day, then put in a sunny window, and if the nights are chilly, return the boxes to the mantelshelf or back of the stove. This way of planting rarely fails; the earth being warmed through starts the seeds as well as a hot bed, and the flannel prevents the cracking of the top of the soil, also keeps up a uniform heat. I planted tomato seed in this manner the fifth of March, and they had all pushed through by the tenth! Could a hot bed do better? Verbena seed, which all admit are very hard to germinate, showed their heads in one week! All kind of seeds treated in this manner will grow, and we shall not hear so many complaints about the seedsmen. Half the non-success in seed raising arises from the ignorance of the raiser. Some seeds will grow no matter what treatment they receive. The tomato will germinate anywhere, but half the delicate flower seeds refuse to see light on account of the manner of planting. Now is the time to remember the old hymn—

By the morning sow thy seed,
At night withhold not thy hand.

If the amateur gardener desires a handsome show of flowers in the summer.

I will give a list of indispensables for the young amateur. "The catalogues" fairly bewilder us with their huge lists of [illegible], and none of us would desire to grow more than part of them. [illegible]

A PENNSYLVANIA RECIPE FOR CURING HAMS AND BEEF.—If your meat has been in pickle one or two weeks, soak it two days in a large tub of water, then hang it to dry in the smoke-house for one day. Take for a common sized smoke-house two ears of corn, not cobs, put them upon a pan of burning coals and set under your meat. Do this morning and night for one week, and the result will be better ham and beef than you have ever eaten. The flavor of the burning corn is wholly different from that of cobs. The meat will have a golden brown skin, and not the blackened hue which cobs give.

SEEDS.—Now is the time for farmers and gardeners to look over their stock of seeds, and see if they are well provided against the time of need. When planting time comes, not a moment should be lost in hunting up seeds. If you are short of any particular kind of seed, and have a plenty of some other sort, exchange with your neighbor. If this cannot be done, and you have to buy, be sure and buy of those only who are honest and can be depended upon. Always procure the best seed, for it is poor economy to use seed that will produce only inferior results. If you have planted the same variety of potatoes for several years, you had better change your seed; procure potatoes from a distance, for they will produce a much better crop, and the potatoes will be larger and better. Seed vegetables may be greatly improved by care in selecting the earliest and best seed. Those who can should raise their own seeds, for, as a general thing, those that you buy will prove inferior to those you raise. We have known cases where corn has been made to ripen a week or ten days earlier, after as many years, simply by selecting the seed in the field from the ears that ripened earliest. Tomatoes may be wonderfully improved, both in earliness, size and beauty, by selecting the largest and finest formed specimens among those ripening early. What is true of corn and tomatoes is true of almost everything that grows. If, then, so great changes can be produced, farmers can exercise great care in selecting seed, and then be sure and keep it pure and good.

CULTURE OF THE GRAPE.—We should avoid everything in grape culture which has a tendency to maintain a excess of moisture around the roots. Deep trenching and high manuring must be discarded, except in thin and elevated localities, and an abundant drainage supplied, which will carry off as quickly as possible the surplus water. Sites should be selected which have a gentle slope to carry away the surface water, before it can all its way through and saturate the earth, [illegible]

STEWED OYSTERS.—[illegible]

SALT AND LIME AS MANURE.—[illegible]

BONES AND ASHES.—[illegible]

MUCK IN COMPOST.—[illegible]

to cool, the muck, one bushel of unleached or two bushels of leached, are sufficient for five bushels of muck. Lime also acts favorably on muck, and one bushel, slaked, with lime, will sweeten and render fit for use ten bushels of the vegetable matter. The mechanical effect of muck on the soil, must not be passed by unnoticed. A low gravelly or sandy soil is rendered more compact and moist, and a stiff clay more friable and less liable to bake and crack.—*Massachusetts Ploughman.*

COAL ASHES AND THE CURRANT WORM.—Robert J. Swan of Geneva, N. Y., keeps his currant bushes entirely free of the currant worm by the use of coal ashes. He applies them in the spring by covering the ground about each bush four or five inches deep or more, and for a distance of two feet on each side. The mechanical sharpness of the ashes prevents the young larvæ from rising through them. Although the season of the fruit had passed when we saw the bushes, they showed great thriftiness and uninjured leaves. The same application was used about the quinces, with equal success, for excluding the borer—the ashes being in the form of small heaps about the stems. From twelve bushes, he gathered this year sixteen bushels of very fine quinces.—*Country Gentleman.*

CHEAP PAINT.—A recipe for making a durable paint was sent, not long since, to the "Societe Encouragement," in Paris, which was said to have the hardness of stone, resist damp, and is very cheap. It had then been in use five years. Its component parts are: 50 of resin, 40 of finely powdered chalk, about 300 of fine hard sand, 4 of linseed oil, 1 red oxide of lead, and 1 of sulphuric acid, all to be mixed. The resin, chalk, sand and linseed oil are heated together in an iron boiler; the red lead and the sulphuric acid are then added, and all carefully mixed. The composition is applied while hot. If not found sufficiently fluid, it may be made thinner by adding more linseed oil. When cold and dry, it is said to form a varnish of the hardness of stone.

ABOUT HONEY.—To show that honey-bees, instead of being an injury to farmers, are a benefit to them, the fact is cited as well known to observing bee-keepers that when we have a fine yield of honey from the buckwheat or the orchard we have a corresponding yield of grain or fruit, unless prematurely destroyed by frost or other causes. There are seasons when bees work very little on buckwheat, and the result has been, with scarcely an exception, a small yield of grain. In many parts of Russia, some peasants have hundreds of bee hives, and really make more profit of their bees than of corn. In one locality the number of hives was incredible; a single parish forest, it is said, possessed five hundred swarms. Honey is said to possess so great restorative powers that, in some instances, at the point of death, when all stimulants and tonics had failed, a table-spoonful given every half hour, has rallied and saved the patient.—*New England Farmer.*

A Complimentary Testimonial.

LOUISVILLE, March 24.

E. S. Keyser, M. D., 120 Smithfield street, Pittsburgh, Pa.

DEAR SIR—You will remember no doubt that I called at your office in the early part of last winter, suffering at the time with a disease of the head and throat, denominated Catarrh. When at your office, and for three years previous, I was very much emaciated, and in a prostrate condition, both mentally and physically. Indeed, I was unable to pursue my profession as a physician.

My object in writing is three-fold. First, to inform you that your treatment has completely cured me. I have gained in weight forty-four pounds. Secondly, to enclose you a draft for $200, as a small token of my gratitude for your valuable services. Thirdly, to inquire whether it would be consistent with you to furnish me with your remedies so that I could treat cases similarly affected. I propose settling in the Rocky Mountains, and as such diseases are very prevalent there I should be enabled in a very short time to do much good to suffering humanity by your method of treatment.

Your grateful patient and friend.

[For prudential reasons the name of the physician is withheld.]

THE Best and Original Tonic of Iron, Phosphorus and Calisaya, known as Caswell, Mack & Co.'s Ferro Phosphorated Elixir of Calisaya Bark. The Iron restores color to the blood, the Phosphorus renews waste of the nerve tissue, and the Calisaya gives a natural healthful tone to the digestive organs, thereby curing dyspepsia in its various forms, Wakefulness, General Debility, and Depression of Spirits. Manufactured only by CASWELL, HAZARD & CO., New York. Sold by all druggists. w

It is Amazing

That the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of HOSTETTER'S BITTERS, all would know that its effect is to prevent disease.

At this season the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciple of the old medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots and barks can do no harm, while the testimony of thousands invites a trial of its virtues.

Vigor is the thing most needed in these cases as well as in dyspepsia and nervous affections, and HOSTETTER'S BITTERS is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Hundreds of physicians have abandoned all the officinal receipts and prescribed this harmless tonic as a preventive and cure for all cases of Chills and Fever.

Similia Similibus Curantur.

FEVER AND AGUE! CHILL FEVER!! DUMB AGUE!!!

It is not a very difficult thing to break the ague—that is, for a time to scatter it over the system, with Quinine, Arsenic, or similar poisons. But a vegetable medicine which not only breaks the fits, but eradicates from the system, is a remedy worth having. Such is HUMPHREYS' HOMEOPATHIC AGUE PILLS—a harmless sugar pill; it cures the disease, breaks up the fits and eradicates from the system, and even prevents where persons have been exposed. Children, infants and the most feeble may take it with impunity. The most inveterate cases are radically cured by it. Price 50 cents per box.

FINANCE AND TRADE.

SATURDAY EVENING, March 28th, 1868.

During the past fortnight of excessive financial stringency at the Eastern money centers, our own local market has not exhibited any unusual closeness more than is common to it, or the quarterly statement day invariably brings about. We may expect, therefore, that the coming week will witness all the tightness and inconvenience incident to this periodical cause, and we may soon expect a favorable letting up in the money market, when greater ease and a more liberal discount line will be established.

—During the week the government bond market has been quite irregular with alternate symptoms of weakness. Large orders from here and other Western houses are in the hands of the Eastern bankers to purchase at a certain minimum rate, and whenever the market approximates it the heavy purchasing stimulates again the prices. Last Monday, in New York, there was a concerted attempt to break the market in the bonds of 1862, through an effort of a prominent German broker to create the impression that the Germans were throwing their bonds on the market, but it failed, and soon acted in favor of the market.

—The New York gold market remains steady. The room keeps constantly largely oversold, which encourages holders to cling to their gold in face of the stringency of money and the probabilities in favor of an ultimately lower premium.

—The following interesting review of the stock market we copy from the *World* of Saturday: The stock market was strong throughout the day, closing at the highest prices and few stocks offering. Some of the leading bears commenced buying their shorts yesterday and to-day, and they find it difficult to buy without advancing prices. Drew has been a buyer of Erie since Monday, and it is said will soon be ready to join the bulls. It is reported that his friends are negotiating for him with the Vanderbilt party. The defeat in the New York Legislature of the Drew-Erie bill to legalize the illegal acts committed by the Drew-Erie directors leaves little hope of relief to them from the judiciary of New York State. The position of the Drew-Erie party before the disinterested public is that they have absconded from New York to New Jersey for the purpose of escaping the penalties of the law from our courts—the absconding being *prima facie* evidence that in their own opinion they were guilty of illegal acts. Furthermore, the application to the Legislature of the State of New York by these absconders to pass a bill to legalize their *post facto* illegal acts has been therefore properly negatived by a very large majority, of nearly three to one. In New York Central there was a large business transacted, opening at 118¾ and closing at 119½@120. Erie was sold at 68½ at the first regular board, and closed at 69½@69¾. The shares of the Western roads were all strong, with the exception of Rock Island, which was affected by the report that all the old directors had resigned, and a new set had been elected in their place at Chicago, for the purpose of getting rid of the injunctions against using the money and building the road to Omaha, and also for issuing more new stock. In Pacific Mail there was a pressure of sales in new certificates which are said to be on account of the company; the price declined to 102, but it afterwards rallied to 103 to 103¼. Atlantic Mail closed at 86½ to 87½. Canton was steady at 45 to 46½. Western Union at 34 to 34¼. The express companies shares were dull. The market closed strong and with evident symptoms that the bottom had been touched, and that those who have been hitherto bears are anxious to buy. When the money market eases up, after next week, and the bears have got their load of stocks, they will then become bulls and run prices up rapidly. The Vanderbilt party will be ready to move up all their stocks in the course of a short time, and Toledo and Wabash and Fort Wayne may be now numbered among the Vanderbilt stocks.

—The following table, as reported by J. W. Kennedy, broker, will show a comparative range of prices for the past week:

—James W. Kennedy has succeeded S. S. Bryan, Esq., in the Stock Commission business, at No. 80 Fourth street, in Apollo Building. Stocks, promissory notes, bonds, mortgages, &c., bought and sold. Loans negotiated at low rates on collaterals, such as sound dividend stocks, United States, Municipal, State or Railroad bonds. Being in direct telegraphic communication with the New York Stock Boards, when in session, he can execute orders for the purchase or sale of railroad stocks, Government securities, gold, &c., at the same rates and terms required by the brokers in that city.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY EVENING, March 28, 1868.

During the past week business has been rather more active, but prices of the leading articles are without material change. The receipts of various articles continue very light, and unless speedily increased must cause an advance in several articles, as there is a decided improvement in the demand. We note the following since our last: Flour [illegible] barrels; apples [illegible] barrels; corn [illegible] sacks; wheat [illegible] sacks; barley [illegible] sacks; rye [illegible] sacks; oats [illegible] sacks and butter [illegible] packages.

We quote as follows, which are the wholesale store prices, unless otherwise noted:

APPLES—Sales were made at [illegible] ℔ barrel as to quality.

ASHES—We note sales from store of pearls at [illegible] ℔ lb; soda ash at [illegible], and refined at [illegible] ℔ lb.

BUTTER—The receipts are slowly increasing but no decline has yet taken place. We quote prime to choice at [illegible] ℔ lb. We note sales of 20 tubs choice No. 1 at [illegible] and 10 half barrels at [illegible] ℔ lb.

EGGS—We note a good increase in the supply coming forward and prices are drooping. We quote at 25c ℔ dozen. In the Diamond market they were retailed at the same figure.

BACON, LARD, ETC.—The market continues very active at 18c for sugar cured hams; [illegible] for canvassed sugar cured hams; 13c for shoulders; [illegible] for rib sides; [illegible] for clear sides and [illegible] ℔ lb for lard in tierces.

LARD OIL—There is a firm market at [illegible] for extra No. 1 and [illegible] ℔ gallon for No. 2.

BROOMS—We note sales of 75 dozen No. 2 western, a good article, at [illegible] ℔ dozen.

FISH—Sales reported of [illegible] half bbls lake herring at [illegible], and 4 half bbls white fish at [illegible] each.

CRANBERRIES—Sales of [illegible] bbls cultivated at [illegible] ℔ barrel.

CHEESE—We note sales of 20 boxes Western Reserve and Hamburg at [illegible]; 30 boxes Goshen at [illegible], and [illegible] lbs Switzer at [illegible] ℔ lb.

ONIONS—Prices are lower. Sales of 5 bbls prime yellow at [illegible] ℔ bbl.

MAPLE MOLASSES—The receipts have been small. We note sales of 25 packages at [illegible] ℔ gallon.

POTATOES—We have reported sales of [illegible] bbl. Buckeyes at [illegible] ℔ bbl. Peach blows are quoted at [illegible] ℔ bbl.

HAY—At the Allegheny City scales [illegible] loads loose timothy hay sold at [illegible] ℔ ton, as to quality, and at the Pittsburgh scales 12 loads sold at [illegible] ℔ ton. On the wharf baled sold at [illegible] ℔ ton.

SEED—The only sale reported was [illegible] sacks clover seed at [illegible] ℔ bushel, and [illegible] bushels timothy seed at [illegible] ℔ bushel. Flax seed is quoted at [illegible] ℔ bushel.

GRAIN—The market has improved considerably in the amount of sales and demand. We note sales of [illegible] bushels rye from depot at [illegible], and small sales at [illegible] ℔ bushel. On the wharf [illegible] bushels oats sold at [illegible], and on the track 1 car load at [illegible] ℔ bushel. In depot 2 cars shelled corn sold at [illegible], and on the wharf [illegible] bushels prime yellow ear at [illegible] ℔ bushel. Barley is [illegible] and in demand, at [illegible] being freely offered for spring. There is no change in wheat. The millers are paying for red winter [illegible], and for white wheat, [illegible] ℔ bushel.

BUCKWHEAT FLOUR—There is no demand, and we quote it nominally [illegible] ℔ hundred.

CORN MEAL—Sales were made at [illegible] ℔ bushel.

FLOUR—The market has been very active during the past week, but prices are unchanged although all brands have advanced fully 25c ℔ bbl at Chicago. Our dealers here are anticipating a still further advance, and have consequently bought larger amounts than they would otherwise have done. The demand is for the best well-known brands. Medium grades are but little called for. Rye flour has advanced, owing to the high price of rye. One of our largest dealers furnishes us with the annexed quotations of various brands.

Prices of T. C. Jenkins, wholesale flour dealer, Checkered Front, No. 273 Liberty street:

Dayton Snow Flake White winter	$12 50
White River Winter	11 50
Oregon Winter, Choice	12 00
Jenkins's Lily and Favorite Winter	11 25
Old Dominion Choice	11 25
Crossett's	11 00
Clark's	10 75
Medium Brands	9 50@10 00
Rye Flour	8 50

Sole agent for Crossett's and Ford's flour in this market.

Flours are active at quotations.

Orders and consignment promptly attended to.

N. B.—Beware of imitation brands of flour that are being put upon the market for genuine.

WEEKLY REVIEW OF THE OIL MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, MONDAY, March 30, 1868.

The following are the receipts of crude oil for the past week and from the first of January; also, the exports of refined and crude by the Allegheny Valley Railroad and the Pennsylvania Central together with a comparison table with 1867:

	Crude Rec'ts by river and rail.	Exp'ts per Penn'a Central.	Exp'ts per Alle. Val. Railroad.
Monday, March 23	—	466	—
Tuesday, March 24	7,375	—	835
Wednesday, Mar 25	7,912	217	645
Thursday, Mar. 26	7,750	—	300
Friday, March 27	9,254	—	—
Saturday, Mar. 28	18,189	162	1,382
Total for week	50,483	845	3,162
Since January 1	152,084	7,033	47,990
To March 28	202,567	7,878	51,152
Same time 1867	121,137	9,500	68,716

BUSINESS—The market, since our last weekly review, was a firm one in regard to Crude and Refined. The former was in active demand. The sales foot up larger than for some weeks past. Taking all things together, the market presented a healthy appearance. The market for Refined was firm for present and future delivery, the largest operations being for the latter. The Eastern markets were noted for increased firmness.

RECEIPTS—The week's receipts of crude by the river were large, reaching in the aggregate 50,483 barrels, against 1,592 barrels for the previous week, showing an increase for this week of 48,891 barrels. The total receipts from all sources from January 1st to date, were 202,566, against 121,137 barrels received during the same period in 1867. Increase this year 81,430 barrels.

EXPORTS—The week's exports by rail were as follows: Pennsylvania Central, 845; Allegheny Valley Railroad, 3,162; total 4,007 bbls. From January 1st to date, 59,030. During the same period in 1867, the exports were 78,216 bbls.

SALES—The week's sales were large—crude amounting to 50,300 barrels; exceeding last week 16,600 barrels. The refined sales were 14,500 bbls, exceeding last week 500 bbls. Total sales for the week, 64,800 barrels.

Saturday—The market on Saturday was firm but not very active. As a general thing buyers were disposed to hold off. Sellers manifested no anxiety to sell; they say they can wait. Crude—The sales reported were 4,800 barrels, as follows: 800 bbls., bulk, spot, at $3; 3,000 barrels, deliverable as follows: 1,000 barrels in April, 1,000 barrels in May, and 1,000 bbls. in June, at 9c. Sales of 1,000 barrels at the wells, near Franklin, at $3 ℔ barrel. Dispatches from Oil City report the market unchanged. Refined oil—Business quiet on Saturday. We did not learn of a single transaction for present or future delivery. By general consent the market was adjourned over until Monday.

Oil City Oil Market.

Special Dispatch to Pittsburgh Commercial.

OIL CITY, March 28, 1868.

The crude oil market is quiet with a few transactions here to-day at $3 10. The indications at closing were considered favorable for a decline. As there is now no water for shipments in bulk, and the pipes for the Valley road have not been repaired, no oil will be shipped to Pittsburgh. Cleveland has been buying freely during the past week and is now reported full. O. C.

PETROLEUM MARKETS.

PHILADELPHIA.

There has been less activity in the market for both crude and refined. At the close of the week a "short" local interest was developed which enabled holders to realize an advance of ½c ℔ gallon. The *Commercial List* reports sales of 1,000 bbls crude at 17c; 1,500 bbls do, new pkgs, at 17½c; 2,000 bbls in bulk at 12@12½c, according to gravity; 2,000 do do for April at 12½c, b o; 10,000 refined in bond S W on the spot at 24½c, 24½@24¾c early in the week and at the close at 25@25½c; 3,000 bbls S W, all March, at 25c, b o; 2,000 bbls S W, last half of April, at 25¼c, b o; 1,500 bbls S W do do do at 25½c, b o; 1,000 bbls do do at 25½c, b o; 500 S W, for May, at 26c, b o; 4,000 bbls S W (500 bbls each month) May to December at 26c, and advancing ¼c each month, closing to-day at 25@25½c for S W on the spot and all March; 24c for P L S to W; 25¼c, b o, for S W for April; 26c for May; 26½c for June; and 27c, b o, for July; and free (which has declined, owing to the proposed reduction of the tax) at 36@38c. Residuum is held at $4 25 and Naptha at 14½c. In benzine nothing doing; we quote at 14@15c. Lubricating oils are selling at 25@30c for Volcanic; 25@30c for Longmoor; and 150 bbls Mount Farm, at West Philadelphia, at 25c.

The receipts for the week were 4,050 bbls crude and 6,900 bbls refined. The exports were 107,540 gals refined and 144,706 gals crude. Total export since January 1st, 1868, 4,478,192 gals against 3,850,925 gals same time last year. There are now chartered and loading 10 vessels. These vessels are chartered to carry 120,[illegible] bbls—equal to 5,048,400 gals.

NEW YORK.

The market for crude in bulk on the spot has been rather quiet at a shade lower prices. The *Shipping List* reports sales of 1,500 bbls at 12¼@12½c, closing at 12¾c; 1,000 do for April 12½c, and 2,800 do on private terms; there has been a good demand for export, and sales have been made of 7,700 bbls in shipping order at 17½c, sellers option April. Refined in bond is in very light request, but holders are firm at 28c for standard white, and about 27c for prime white; the sales are 2,750 bbls standard white at 28c, and 2,000 cases do on private terms. Free continues dull, and we have no sales to report. 150 bbls residuum sold at $4 25; and 250 do in bulk at 8½c. Naptha is dull.

IRON TRADE.

NEW YORK.

The market for pig iron is reported, by the *Shipping List* of Saturday last, as quite dull, the demand for both Scotch and American being restricted to the immediate wants of consumers; prices, however, are supported, there being no disposition to press sales. We notice 300 tons Coltness Scotch and 200 do. No 2 American on terms not made public, and 300@400 do. No 1 American, including Allentown and Thomas, $39 00@40 00, for prompt delivery. Of other kinds, we notice 50 tons No 1 wrought scrap at $47 50; 1,500 do. new English rails, a large lot English steel do., both for and for delivery, and 400 tons double headed old rails, on terms we did not learn. Bar from store has not changed, but the tendency is to higher prices. We have no further sales of invoices to note—indeed there are very few offering, our dealers importing nearly all their stock—50 packs Russia sheet sold on private terms—11½ cents gold was refused for No.'s 9 and 10.

PHILADELPHIA.

The demand for pig metal has fallen off, and prices are not so strong. We note sales of No 1 at $39@40; No 2 at $36; and Grey Forge at $34@37, including 500 tons Glendon Grey Forge at the furnace at equal to the latter quotation, deliverable here. Manufactured is quiet but firm. A sale of 300 tons old rails at $47. Scotch pig is quiet. Blooms are not much inquired after. Nails are selling in a small way at previous quotations.

IRONTON, OHIO.

We have little to notice in transactions in pig iron, further than a few small shipments amounting to 140 tons, and the receipt of 375 tons, by rail, wagon and river. The prices quoted below are firmly maintained, but buyers are holding back, somewhat with a view of a decline, by the removal of the tax. We quote:

Mill, hot blast	$39 00@41 00
Foundry, hot blast	41 00@44 00
Mtns, cold blast, No. 1 carwheel	55 00—cash
Hecla do do do	60 00—cash

Bar iron is a little more active at 3¼@4½c for common. Nails are in good request at $5 for 10d. The mills are all running except the Ironton, which has stopped the muck mill.

Cincinnati Provision Market.

From the circular of George W. Phillips, Jr., reviewing the provision market for the past week, we learn that there is a better feeling, and prices have advanced considerably. Strong holders demand full prices, and have no disposition to part with their stuff at offering figures. Mess pork has been generally held at $25, but buyers contended for $24 50@24 75, with occasional purchases at these prices, and country, at interior points, could be easily had at $24 50. Old mess is getting scarce and in fair demand at $24, with but few sellers under $24 12½. Rumps are in fair demand at $18@20 as to quality, the latter price for very extra choice and heavy. Lard has ruled rather easier, and prices at the close can not be quoted over 16c, though sales of city have been made ½c higher and choice country at 16c; keg held at 17c. Greases scarce at 10½@13½c for the range of grades. Bulk meats are in better demand than bacon, at relatively higher prices. I quote shoulders, rib sides, clear rib and clear sides at 10½c, 12½c, 13c and 13¼c, all loose, as the minimum prices, generally held ¼c higher. Bulk hams 13½@14c, loose, as to cut and cure; sugar pickled hams 15c block weight. Bacon has been in large request. The South is buying heavily, principally clear rib and clear sides. Shoulders 11½c, rib sides 13¾c, clear rib 14¼c, clear sides 15c, all packed, with buyers ¼@½c less, but holders asking full prices. Plain hams 16@16½c, sugar cured 17½@18c, canvassed and packed. Plate beef scarce and in good demand at $22 50. Beef hams, in pickle, $34@36; smoked 18c, packed.

MATTERS AND THINGS ALONG THE WHARF.—Business on Saturday was fairly active. The shipments were large, particularly as regards Pittsburgh manufactures, the low rates of freight to the west being an extra inducement to shippers. The weather continues pleasant. The J. N. McCullough came in on time. She leaves to-day at noon for Parkersburg. The new steamer Andrew Ackley takes her departure this day positively, for the mountains. The Julia No. 2 will be found at the landing. She will return to Zanesville on Tuesday at 4 P. M. The Messenger leaves to-day positively, for the Upper Mississippi. The Glasgow is receiving for St. Paul. The Kate Putnam is the only boat loading for Illinois River, and is announced for this day. The Glendale and Armenia are receiving for Missouri River, and will have dispatch.

THE steamer Ingomar, Captain Kemple, leaves to-day at 11 A. M. for Wheeling and intermediate ports.

THE fine mountain steamer Urilda, Captain Haslett, is announced for the Mountains positively on Tuesday.

CAPT. Williamson is fitting up the Importer for a mountain trip. The Captain fitted out the Baden at this port—the boat that made the most successful trip yet made.

PASSENGERS and shippers will be pleased to learn that the fine steamer Kenton, Captain Dunlap, is announced for the Upper Mississippi. She will go through without reshipping.

THE splendid side-wheel passenger steamer J. N. McCullough, Captain Moore, takes her departure this day at noon for Parkersburg and intermediate ports. Persons going that way will bear this in mind.

THE People's Line Packets leave their wharf boat daily at 5 P. M., for Monongahela City, Brownsville and Geneva. These boats have unsurpassed accommodations, and are in charge of careful and attentive officers.

THE fine packet America, Captain Adam Poe, is receiving for Clarksville and Nashville, and will go through without reshipping. A fine opportunity for persons going that way. Our esteemed friend Capt. Murdock will do the honors in the office.

THE far famed packet Messenger, Captain Jesse Dean, leaves for St. Louis, Galena and Dubuque on this day. To persons going that way the present is a fine opportunity. We take pleasure in recommending boat and officers.

THE first-class passenger packet "Armenia" Captain A. C. McCallam is announced for Missouri River as an independent packet. This boat is one of the best of her class afloat, and is in charge of both experienced and attentive officers.

THE towboat J. S. Cosgrave swung against the pier of the Panhandle bridge on Saturday morning and sunk. The crew was saved with difficulty, the Captain receiving some injury. The boat will be raised.

COAL DEPARTURES SINCE OUR LAST.—For the lower markets—Sampson, 7 barges, containing 77,000 bushels; Antelope, 6 barges, containing 66,000; Panther, with 7 boats, containing 134,000 bushels. Others are getting ready.

AS will be seen by a card in another column, Capt. G. W. Johnson announces the fine steamer Glasgow for St. Paul and points above and intermediate. The boat has excellent appointments, and is admirably officered. Passengers and shippers will find it to their interest to call on Captain Johnson or his agents early.

THE first class passenger steamer Glendale, Captain J. M. Hare, is announced for St. Louis and Missouri river direct, and will go through without reshipping. This boat is well found in every respect, and is in charge of officers that would make a less worthy boat popular. Captain James Mellon, who presides in the office, stands at the head of the profession.

THE first class packet Kate Putnam, Capt. J. H. Lightner, is announced for St. Louis and Illinois River, and is the only boat loading for that stream. As regards speed, accommodations and attentive officers, this boat stands A No. 1; besides she is just off the ways having been placed in thorough repair for the spring trade. Our accomplished friend James Young will be found in the office.

THE new and splendid mountain steamer Andrew Ackley, Captain Bolie, takes her departure this day positively for the Missouri river and the gold mines. This boat was built expressly for the trade. In her construction no expense has been spared. In a word she is one of the most complete boats ever constructed for the mountains. Captain Ackley did the superintending, a sufficient guarantee that it was done right. Captain Bolie is an officer of large experience in that trade. The first clerk is our esteemed friend Captain Sharp Hemphill, one of the cleverest boatmen to be found anywhere. Our best wishes accompany the Andrew Ackley on her mountain journey.

RIPLEY.—The *Bee*, of the 12th, says:

J. C. Carey & Co. and James Howard have purchased the T. J. Pickett for $4,012. It is the design of the parties to make a tow of her. She is lying on the opposite side of the river.

EVANSVILLE.—The *Journal*, of Thursday, says:

Mark & Henning received yesterday, by way of New Orleans, from Liverpool, 100 crates of queensware. The freight from Liverpool to New Orleans was 12½ cents ℔ 100, and from New Orleans to this city 25 cents ℔ 100, making the freight from Liverpool to this city 37½ cents ℔ 100 lbs.

ST. PAUL, March 22.—Everything indicates the opening of navigation somewhat earlier than usual. The ice in the lake is reported to be rotting rapidly, and the high wind which prevailed yesterday will greatly assist in breaking it to pieces. The river swelled a few inches in the last twenty-four hours, and is still steadily rising, but not with much rapidity.

LOUISVILLE, March 27—9 P. M.—River rising 4 inches an hour at the foot of the Falls, with 14½ feet in the canal and 12 feet on the Falls. Cloudy all day, indicating rain. The Belle Lee arrived this morning, 5½ day out. The Lawrence, Silver Spray and Virginia passed down. The Virginia received 1,500 bbls cement and 100 horses here for Omaha. The Louisiana and Maggie Hays passed up. The towboats Mary Alice and Collier, with six barges of iron ore, ascended the falls for Pittsburgh.

ST. LOUIS, March 27—Noon.—The heaviest receipts for years is expected to-day here by the river. The Missouri river trade is doubtless greater than ever before. The Abeona left for Cincinnati with a full load. The Mary Davage and barges continue loading for the Ohio. Capt. Symmes has sold his interest in the Mollie Able to Capts Dan and Bart Able. The Mississippi was falling at Burlington yesterday, and is stationary at Keokuk. The Missouri is stationary at St. Joseph and rising at Lexington. H. Louney, of Dubuque, says he has chartered at Pittsburgh for the season the towboat Antelope, which will start to-morrow for St. Paul with 2,000 tons of coal for the Gas Company. The towboat Ocean Wave has laid up at Dubuque. River rising slowly.

CINCINNATI.—Saturday's *Gazette* has the following: The Argosy came in from Pittsburgh during the afternoon. Owing to the rain, and delay in discharging, she was compelled to lay over, but returns to Pittsburgh to-day.

The Charmer passed up from Nashville for Pittsburgh, after coaling in the mouth of Licking.

The Melnotte and Armadillo arrived from St Louis last night. The latter will depart for Pittsburgh early this morning. The Armadillo is making good time. She was fully loaded both ways, and is only seventeen days out, from Pittsburgh to St. Louis and back to Cincinnati.

The Scioto is higher at Chillicothe than it has been for thirty years. The Muskingum was also rising at the rate of two inches an hour last night at Marietta.

We regret to announce that Mr. Henry C. Clark, Adams Express messenger, one of the victims of the ill-fated Magnolia, died of injuries received by the explosion, last evening, at seven o'clock, at his residence, corner of Cutter and Laurel streets. The deceased was extensively known and highly esteemed all along the river between Cincinnati and Maysville.

The Argosy takes 792 bales of cotton for Pittsburgh, reshipped from the Clifton and Emperor.

Notwithstanding she ran against a rising river, full of heavy drift, and lost considerable time repairing her wheels at Cairo, the Belle Lee has made the run from New Orleans to Louisville in five and a half days. This is the best time made for several years.

The salt boats which were carried away opposite here have been landed. One, however, is being unloaded, as it was found to be in a fair way for sinking. Five salt boats got adrift yesterday morning, somewhere above Covington, and floated past that city. They were stopped at White Hall. They ran against a fleet of empty coal barges lying below the foot of Main street, Covington, breaking one loose, which floated off with the rest. It was with difficulty the entire fleet was prevented from being torn from its moorings.

Residence and Grounds on Cliff St.

AT AUCTION.

ON THURSDAY, APRIL 2d,

At 2½ o'clock, on the premises, will be sold by auction, that very desirable and handsome residence of James P. Tanner, Esq., situated on the corner of Cliff, Gum and Bedford streets. The lot has a front on Cliff street of 75 feet, extending back along Gum street 280 feet to Bedford avenue (a 60 foot street.) The improvements consist of an elegant modern style three-story brick mansion (imitation of stone), containing 16 commodious rooms, built entirely separate and independent of each other, brick partition walls of 13 inches thickness, making each room fireproof; wide halls with vestibule having marble base, neatly finished, marble tiled floor, &c. Furnace with register throughout the building. Gas, hot and cold water in every room, together with all modern improvements incident to a first-class dwelling, such as swinging chandeliers, marble mantle, marble top stationary wash stands, water closets and bath rooms. The rooms of main building are moulded, stuccoed and finished elegantly; outbuildings and stable complete. The ground being neatly enclosed by a brick wall tapped with stone, are covered with ornamental trees and shrubbery; there is also a cold grapery on lot 116 feet in length. This property commands an extended view over the cities and suburbs, in point of convenience and comfort is unequaled, and a more desirable opportunity of investment for parties wishing to locate in an excellent neighborhood, is rarely presented.
